Two straws, mix and match, of Dream Rolex DNA#50271 655"@4 and/or Rolex Double Drop DNA#50272 320"@3. Dream Rolex won NADeFA's highest scoring non-typical 3 yr. old and also won NADeFA's largest mainframe 3 yr. old measuring 266". At 4 he scored an amazing 655", winning NADeFA's mature non-typical whitetail award. This put him at the top of the ranks making him the largest whitetail ever scored at NADeFA. He was known for his toughness in carrying all 3 of these racks until rub out time. Dream Rolex's sons are unbelievably large, beautiful and mostly typical, and very early maturing. His daughters are showing up all over the country producing large, mostly typical, early maturing bucks. Rolex Double Drop scored 360"@3. He lived up to his name with all 3 of his racks having 2 beautiful drops on each side. He was Dream Rolex's womb brother, putting them in the running for one of the largest sets of womb brothers ever born. Green 90, the anchor doe for Dream Rolex and Rolex Double Drop, is Thance's mom, which is the big beautiful typical. One of his daughter's sons, Surprise Express, won Texas Golden Buck in the 2 Yr.
